

# Bialik students share the love

FOR their first project of 2016, Bialik College's mazkirut (student leadership) played Cupid.

In order to raise money for Save a Child's Heart, the mazkirut invited students to order chocolates which were hand-delivered to the recipients at the end of the week. Students lined up to support the cause.

The Save A Child's Heart Foundation is an Israeli-based, not-for-profit organisation that provides life-saving heart surgeries to children from around the world, as well as training for local surgeons.
