

Bialik loves the Arava

SINCE the beginning of term, the kinder children at Bialik College have formed friendships with their counterparts on the other side of the world in the Arava region in Israel.

The partnership between Bialik and the Arava sees the students buddied with a kindergarten from moshavim where they email each other, send letters and arrange Skype sessions.

The kinder children also recently gathered to celebrate a communal Kabbalat Shabbat wearing their new T-shirts showcasing their love for their new friends and were delighted to see their friends in the Arava wearing the same.

They will continue to keep up the friendship for the rest of the year and will hold simultaneous celebrations for the Jewish holidays.
