

Solo exhibition for a 16-year-old

TALENTED Bialik College student Dion Fibishenko is making waves with his first solo art exhibition.

The 16-year-old has been working under the tutelage of Russian artist Margarita Krivitsky, who has helped Fibishenko make his dream come true.

The exhibition's theme is Terra Di Grano, an imaginary landscape that suffuses the senses with bright colour.

Fibishenko explained his inspiration was a perfect world that he could only imagine.

"This was my internal utopia," he said.

"A world untouched by the human affliction, a world untouched by religion. A world untouched by hatred."

The exhibition ends on October 30 at Common Ground, which is located at 750 North Rd, Ormond.
