

# **Bialik PARDES program back again**

BIALIK College's after-school PARDES program is back again for 2017 for students in years 8 and 9 who have a thirst for knowledge and understanding in extending their learning beyond their current school hours.

Throughout the first term, students will study a unit on "ethics", taught and led by principal Jeremy Stowe-Lindner.

Students will be introduced to theoretical ethics and will explore complex philosophical questions.

The program began in 2012 and has run every year since.
