

City week for Bialik

THE year 9 cohort at Bialik College partook in City Week recently where students spend a week in the Melbourne CBD for educational purposes.

Students visit all aspects of the city and learn about the arts, history, culture, sports and religion within the Melbourne CBD.

The East Melbourne Hebrew Congregation, the Melbourne Museum, the MCG and the Magistrates Court are among the places the students visit.

On top of the excursions, students partake in "Race around the City Video Challenge" and the "Big Issue Classroom" activities which the school organises.

"Catching public transport and finding their own way around the city helps our students develop independence, decision-making skills and confidence," a school spokesperson said.
