

# Making friends in Israel

FOR five years, Bialik kindergarten students have enjoyed a partnership with kinder classes in the communities of the central Arava region in Israel.

This year's kindergarten students were presented with special T-shirts to acknowledge the ongoing relationship between Bialik's Early Learning Centre and the Arava region's classrooms.

Once they had received their T-shirts, students were greeted by their Israeli counterparts over a Skype phone call.

Through Skype, students from both Australia and Israel sang songs, asked each other questions and wished each other a Chag Sameach
