

Aussies visit the Arava

LAST month, year 10 students from Bialik College and the King David School visited the Arava, where they had the opportunity to immerse themselves in the unique culture of the Israeli desert.

Billeted with local teenagers, the Australian students explored the Arava, where they rode mountain bikes, hiked and abseiled.

Australia Arava Partnership's national partnership coordinator Stacy Hayman spent five days in the area, visiting partnership supported projects, participating in activities with the Bialik contingency, meeting locals and exploring the beautiful area.
