

Year 8 Bialik College students at Mount Buller.

They came, they saw, they camped

YEAR 8 students at Bialik College worked up a sweat on their recent four-day camp adventure exploring Mount Buller.

With challenging mountain bike trials, hikes and interactive fun activities, the campers had an unforgettable experience. They visited the Buller CFA to learn about firefighting in the mountains, walked the summit to see the spectacular view of the Yarra Valley, slept in tents and prepared some of their own meals.

In the evenings, the students had the opportunity to unwind, bond and play games.

Year 8 coordinator Julian Duband said, "This camp was a fantastic experience that challenged and extended each individual. At the end of the mountain bike ride, the students felt a great sense of achievement and a boost to their self-esteem."
