## **Bialik takes aim at the Middle Ages**

YEAR 8 students at Bialik College stepped back in time to medieval society recently to get a hands-on experience learning about this interesting period in Western history.

Students dressed in period costumes and took part in various events, including archery, medieval warfare, the art of dance and games without any technology.

A highlight of the day was Tournament, during which students were taught how to master the various weapons knights used in battle before competing against the Medieval Education Performing Company's token knight.

The day concluded with a medieval feast in the afternoon sun.
