

Year 7 student Riley Brick's creative roots project at Bialik.

Bialik's b'nei mitzvah graduates

AS part of the year-long B'nei Mitzvah program at Bialik College, the year 7 students partook in celebratory ceremonies last month, where friends and family were invited for an enjoyable supper, presentations by the students and a viewing of their hard work.

A fundamental feature of the program requires the students to submit a creative response that reflects their family history and Jewish heritage.

Attendees and fellow students had the opportunity to view the students' creative roots project at these ceremonies held at the school.
